INTERVIEW SUMMARY

Sir:

Applicant thanks the Examiner for the interview held on January 16, 2007. During the interview, the Applicant's representative discussed several substantive features of the invention along with the references mentioned in the Office Action.

In addition, Applicant's representative inquired whether emphasizing on the fixed feature of the binders will overcome the prior art of record and the application will be allowed. In response, the Examiner Henderson, stated that additional time is necessary to evaluate the additional features suggested by the Applicant. Further, the Examiner stated that the suggested feature will probably not be entered into the application.
